Old friends, it is said, are the family we choose, and so it is that Andrew Adelman, while waiting to board a return flight home, has a chance encounter with his former best friend from college, Kevin Bristol.

In a world where everyone’s version of the truth is wielded about as both a shield and a weapon, old wounds inevitably open, and those involved discover that the scales of justice are often tipped in someone else’s favor.

“When There’s a Will” delves into the complexities of relationships and human nature; where one man’s instinct to help a friend in need results in unexpected, and perilous consequences - be they by chance or by design.
